Big Crowd at Chicken Supper

The C. W. L. chicken supper on Saturday, Nov. 5, was very successful from every point of view. The attendance was unusually large, the efforts of those providing the supper being taxed to the utmost during the entire period the chicken supper was served. Other attractions were well patronized and altogether a splendid evening was spent. Miss Daigle was successful winner of the runner that was raffled, while W. Racher won the cushion cover. The C. W. L. are to be congratulated on the outstanding success achieved.

FRASER-SANDERSON

A quiet wedding took place on Saturday, November 5, in Vulcan, when Rev. Branton united in marriage, Emily Sanderson, daughter of Mr. and Mrs. W. J. Sanderson and Joseph Fraser, son of Mr. and Mrs. S. Fraser of the Fraser mine east of Champion.

Best wishes are extended to the couple through the medium of the Chronicle.

Hurt in Mine Explosion

Bill Douglas received severe injuries about the face as the result of an explosion at the mine. Thinking that a charge of dynamite had previously set, had exploded, he walked into the mine, only to walk into the explosion. Mr. Douglas was fortunate that the accident was not more severe.

Mr. Phillips and Mr. Burke of the Alberta Government Telephone visited the local exchange last week. Mr. Burke is taking over the duties of Mr. Russ as plant superintendent, Mr. Russ having been transferred to Grande Prairie.

Farewell Party

A farewell party was held at the United Church on Friday evening in honor of Miss C. Barrett, who left on Monday for her home in Ireland. The evening was spent in music and games, after which refreshments were served. During the evening, Mrs. Williamson very fittingly presented Miss Barrett with a hat box. Miss Barrett has been in Champion six years, and while here made a wide circle of friends. All will join in extending their very best wishes for a bon voyage to Miss Barrett.

Reduces Rates

The Canadian Pacific Express Company directs attention to the Special Local and Competitive rate on dressed poultry from Champion to Calgary at 45c per cwt., minimum 40c. J. S. Collins, agent

The second meeting of the Literary Society will be held in the church on Friday, November 18th. A splendid program is being prepared and everyone is welcome.

Theory examination of the Associated Board of the Royal Academy and Royal College of Music was held in Champion Nov. 5th, when Miss Marjorie McCullough wrote the Rudiments of Music under the supervision of Rev. E. Dawson.

Local & General

Mr. Wm. Rhodes of Calgary is a visitor in town.

Mr. and Mrs. W. Harris were Lethbridge visitors Saturday.

B. Hummel motored to Calgary Wednesday.

Dr. and Mrs. H. N. Heal were visitors in Lethbridge Saturday and Sunday.

Mrs. Bertha Anderson and family have moved into their residence in town for the winter.

Mr. Ayotte and W. Adams were Lethbridge visitors Friday.

Mr. and Mrs. Ayotte left on Sunday for their home in Long Beach, California.

Miss Kilgannon of High River was the guest of Miss Barrett over the week end.

Orvil Harper has been confined to his bed during the week.

W. Anderson, formerly of McCullough's left recently for Lethbridge.

Mrs. J. McIntyre left Saturday for Calgary where she will spend the next two weeks.

Mrs. Fred Clever was a tea hostess on Thursday.

Miss Clarkson, Miss Cook and Miss Cameron were hostesses at a dinner bridge on Thursday, November 3, in honor of Miss C. Barrett.

Miss Joan McEwen arrived in Champion on Monday evening to take up her duties at McCullough's.

Mrs. J. C. Anderson was a dinner hostess on Sunday to a number of her friends.

Mr. John Bastin was the winner of the quilt raffled by the Anglican church in Calgary.

Mr. and Mrs. Walter Hamilton and son of Calgary spent the week end as guests of Mr. and Mrs. Vaisey.

Mr. and Mrs. Ray Warren and Mr. and Mrs. Louis Warren were Calgary visitors last week.

Mr. and Mrs. Hugo Guesen went left on Monday, November 7, for Germany, where they spend the winter. They will sail from New York.

Mr. and Mrs. H. Higgins, Miss Blanche Schooley and Gordon Higgins motored to Lethbridge on Monday. Mr. Higgins remained in the city in order to act on a jury.

Capt. H. N. Heal and Lieut. J. D. Henderson attended the tactical exercises for officers at the armories, Saturday and Sunday at Lethbridge.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist of 224-8th Ave West, Calgary, will make his monthly visit to Champion, Friday, Nov. 25th at the Drug Store.

THURSDAY, Nov. 10, 1932

Concluding 16 years of development, school fairs in Alberta had a very successful season in 1932. The first school fair was held in 1916, with one small district centering on Olds. Under direction of the provincial departments of agriculture and education, the school fairs have grown to be an important factor in rural community development. A total of 139 fairs are now held, with more than 25,000 rural school children participating, and showing something like 100,000 exhibits.

A slight decrease in radio licenses in the province is shown in the figures issued recently from Ottawa, which state that Alberta has this year 38,400 licenses compared with 37,401 last year. Edmonton city has shown an increase of about 1,000.

Opportunities for Alberta Exhibitors

The possibility of Alberta exhibitors in seed grains bringing home to the province a considerable sum of money in prizes within the next few months from four major exhibitions, is stressed by E. L. Gray, provincial field crops commissioner. Mr. Gray points out that with the Alberta provincial seed fair, the Chicago International grain show, the Royal winter fair at Toronto and the World's grain congress at Regina next July, totalling in prize moneys in seed grains more than \$50,000, there should be a possibility of Alberta capturing the larger share of this money. Preparations are now under way for Toronto and Chicago, where most of Alberta's well known seed grain exhibitors will be showing, and also for the Regina Congress, for which entries close January 31. In this world show, all the old Alberta exhibitors and many new ones, including a large class of junior farmers, will be prominent with exhibits.

After mature consideration the provincial department of agriculture will again operate the two schools of agriculture at Olds and Vermilion. For some years these have been the only two schools in operation. The registration this year has reached \$2 at Vermilion and more than 100 at Olds, with prospects of several more at each school before the term has far advanced. The registration is fairly well up to last year.

Statutes of Canada provide that Nov. 11th, Armistice Day, shall be observed as a national holiday, under the name of Remembrance Day. This date will therefore be an official holiday in Alberta.

Ottawa, 31st October, 1932

Inter-Provincial Ploughing Match Held At Ottawa Was Attended By Thousands Of Spectators

It would seem that the present generation has by no means lost interest for the oldest of all industries—the tilling of the soil—and a demonstration of how this most important should be done in this day and generation can attract crowds as large as attend big league baseball or football games. An inter-provincial ploughing match was held recently at the Canadian Government Central Experimental Farm, on the outskirts of Ottawa, and many thousands attended to watch the competitive events during the four days the meet was held. On the last day more than 10,000 persons were present to see the finish of the final contests, when furrows were ploughed from one end to the other of a good shoveling for an entire day. This ploughing match, which was open to horse and tractor ploughs, demonstrated that the farm horse is by no means on the way to join the Dodo or the Great Auk. In fact, the consensus among farmer folk is that the farm horse is steadily plodding his way back toward the place of his former popularity.

The Inter-Provincial Ploughing match was formally opened by His Excellency the Earl of Bessborough, Governor-General of Canada, who tried his hand at ploughing a long, clean, straight furrow and made good showing for an amateur. The ploughs used in the contests were naturally a substantial improvement on the old cast iron plough made in Canada more than 100 years ago. This distinction of making that implement belongs to Eranston Parsons, son of Little, Brown and Company, New York. In 1824 he moved to Chippawa, Ontario, near Niagara Falls. He was poor, but had an idea that cast-iron ploughs would be more accessible than those of wood and wrought iron, which were then in general use. He gathered together scrap iron, constructed a crude furrow and cast three ploughs, which proved to be models of lightness and durability. The demand for his ploughs soon became great and he died at the age of 88 years. His business was carried on by a Mr. Macklin. In three years Parsons made a net profit on the sale of his ploughs of \$6,000.

Birds Prove Menace To Sheep
Magpies Destroy Young Lambs In British Columbia
Brutal methods employed by magpies to secure food among the large sheep and goat herds of the spring are disclosed by A. Bryan Williams, British Columbia game commissioner, in his annual report.

Where the lambs are only a few hours old the voracious magpies peck out their eyes, leaving them blind and helpless to die in agony. Then the birds feast on their young, tender lambs.

Bounties were paid on 3,427 magpies and wardens killed an additional 2,885, a total of 6,312 last year. But the birds do not appear to be greatly diminished in number.

The commissioner recommends the total extinction of magpies and crows, the latter being almost as bad as magpies. Wardens shot 5,700 crows last year, also 51 eagles, 302 hawks, and 130 owls.

Mr. Williams describes wild domestic cats as a real menace. Domestic cats are resourceful in the wild and quickly learn how to subsist on wild life. Young game birds and chickens fall easy prey to the cats.

Italian Sailor Was Brave
Sailed Submarine Crew With Great Danger To Himself

Sailor Giuseppe Valentano got a silver medal because he thought of others and forgot himself. The submarine N-6, the award disclosed, started to go down with the crew tower open off Toronto, Valentano, in the tower at the time, leaped to the deck and closed the hatch, from the outside. He was left adrift in the ocean and was nearly dead when picked up. The submarine later returned safely to the surface.

"What is ignorance?" asked Johnny's teacher.

"It's when you don't know something, and somebody finds it out," came the immediate reply.

Russia's population has grown 3,000,000 in the last year.

The steel industry has developed 1,600 kinds of alloy steel.

Receives Faraday Medal

Award Given In London To Sir Oliver Lodge

Sir Oliver Lodge has been fittingly honored by the presentation of the Faraday Medal, which was made at the Institution of Electrical Engineers, in London, England. It was the 21th award of the medal, which was founded in 1921, and was awarded to him in recognition of his distinguished services towards the advancement of science. Sir Oliver remembers hearing Graham Bell when he went over to England with the first telephone, and explained it to British scientists, and recounted to the gathering the excitement it aroused. He is now in his 81st year, having been born at Penkull, Staffordshire, on June 12, 1851.

Road To Longer Life

Scientist Claims Way To Better Health Depends On Food Values

The newest road to longer life and better health for man leads through his stomach. Latest scientific study of nourishment value of foods show it is possible to extend the average length of life and better health of the human race by improving diet. Dr. H. C. Sherman of Columbia University told the American Public Health Association.

Lives On Lonely Island
Modern Robinson Crusoe Is Discovered Off Chilean Coast

A new Robinson Crusoe, who swims rescue, has been found on an island off the Chilean coast.

Sailors of the French vessel "Talisman" who landed on Rincos Island seeing water, said they followed footprints and surprised a man covered with goat skins in a semi-savage manner.

Federico Lavariere, one of the sailors, tried to talk to him, but he answered in guttural sounds, as though he had forgotten his language. By signs, the sailors induced him to lead them to a hidden source of water.

On leaving, they invited him to go along, but he took one look at the ship and fled into the bush.

It was on Jan. Fernandez Island off the central part of Chile that Alexander Selkirk, the prototype of "Robinson Crusoe," lived.

Here's a charming day dress following the newest lines made is favouring. Its simple bodice with slimming "V" neckline has a becoming tie-like trim. Pointed seaming slenderizes the hips. The lower skirt in panels, gives decided height to the figure.

Materials such as rough crepe silk, crepe satin and thin woollens are suggested for this fashion fit.

Style No. 2863 is designed for sizes 36, 38, 40, 42, 44, 46 and 48 inches bust.

Size 36 requires 3 1/2 yards of 36-inch material with 3/4 yard of 25-inch contrasting.

Price of pattern 30 cents in stamps or coin (coin is preferred). Wrap card carefully.

Liked Canada's Ice Cream

British People Would Like To Have It Often

Writing in the Edinburgh Scotsman, "A Woman Guardian" says it is a pity, with all these negotiations at Ottawa, that something could not be done about ice cream. A friend, just home from Ottawa, tells me that we hardly know the meaning of the words on this side. He gave mouth-watering accounts of the slabs of delectable ice cream which he was served at every meal. Maybe he exaggerated, but it is a much more frequent item on the Canadian menu than it has ever been with us. "And it is real ice cream, mind you," says of your condensed milk mixtures. It is like silk on the tongue, he says, and factory-made. At 25 cents a pint, it is a palatable, economical, and nourishing addition to the diet. What I begin to visualize is an ice cream flying boat. Picture a band of girl flyers in white uniforms sailing across the skies in a silvery flying machine, bearing quart jars of rich ice cream to waiting customers on this side of the water. "They'd eat it all on the way over!" suggests someone—an unkind critic of a really bright proposal.

Girls Run Irish Factory
Govern Working Conditions and Decide Wages and Hours
The cheerful clack of machinery belies defiance to depression in a Dublin factory, which is run by 170 working girls.

Situated in a humble street, the factory exists only for the manufacture of rotary heads. The proprietress is a grand nephew of the famous Irish patriot and author, John Mitchell.

The girls who work in the factory elect a council every year, and they decide wages, hours and working conditions. They know the profit and expenses and they see the books. Each girl has as much of a vote as the proprietor.

The moves of nearly every head of cattle slaughtered in Ireland come to the little mill in Waterford Street. High speed machinery turns them into the horns heads that have a sale the world over.

Profits are substantial, working conditions satisfactory. The girls say they are happy.

Alfalfa Makes Good Pasture

Not Necessary For Farmer To Harvest Second Crop

We once heard a man say that he did not grow alfalfa because "it makes too much hayting." Sometimes we think he was right. Ordinarily it is a fine thing to get a second and third cut of alfalfa, but the best hay-making season is over when they come and curing is often a problem. This year, after taking off 100 loads of hay, we were not at all enthusiastic about a second cut. We had four fields that would have yielded another crop, but only two of them were harvested—the two smallest—and we made ourselves think that the other two were needed for pasture, as indeed they were for the pasture season was only half over at the time. Farmers rarely have too much pasture, and the live stock will usually take care of any second or third cutting that a wary farmer does not care to harvest. Where alfalfa will grow there is no sound argument against it. Farmer's Advocate.

Canada's Flour Exports

Substantial Increase In Shipments To United Kingdom Is Expected

In 1931 Canada sent 2,225,490 barrels of flour to Great Britain out of a total importation by the British of 6,141,192 barrels. The United States sent 1,187,180 barrels. It is expected that Canada will increase substantially her exports of flour to the United Kingdom.

In 1931 Great Britain imported to the equivalent of 250,460 bushels of wheat. With the flour and wheat preference granted through the agreements, the wheat exports from Canada to the United Kingdom are expected to increase by many millions of bushels.

And as the wheat industry is one of the chief keystones of Canadian prosperity, the advantages granted wheat and flour are hoped to prove important factors in the national recovery.

A photograph taken at a recent social gathering in Scotland revealed that only one man was wearing a kilt, and he was an Englishman on his first visit to Scotland.

Nearly 1,000 building permits have been issued in Melbourne, Australia, this year.

New Process Being Perfected For Producing Synthetic Lumber Stronger Than Natural Product

Pure White Shells and Pale Yellow Yolks Now Correct

When we speak of good taste in eggs we usually mean gustatory, or at least, olfactory taste. But butter and egg nog declare the visual taste is the selling appeal in eggs, new-laid eggs, fresh eggs—or eggs. Hens are, perhaps, more concerned than is the public in the announcement that correct style in eggs from the poultry yard this coming winter demands pure white shells and pale yellow yolks. L. B. Kilbourne, president of the United States Egg Men's Association, is quoted as authority for that claim, while he makes it evident that esthetic considerations enter into the marketing of eggs. Of course, we Canadians have so many protective laws and inspectors always working that our eggs must be always to good taste for breakfast table manners. At least, legally, no unwarranted egg can enter a house unless duly branded according to class.

Still, we don't know where that Chicago expert gets his fashions for hens and their eggs. The egg public is not fussy except about the date of the package. The average egg appetite doesn't go by shells, being tint, sun tan, or what not. A pallid yolk is not so worrisome as long as the period between the hen and the cup is not too brief. However, the golden yellow of an egg is rather appealing to even the less dilettante, though a mere egg expert might not notice the slight pastel shades of the yolk, as it were. Then there is a considerable section of the egg's public with a strong leaning to the belief that stronger coloration of shell indicates richer and more nutritious content. The chemistry persons deny that fancy. At the same time boarding house proprietors who have facilities egg fanciers to satisfy both their white eggs in coffee and produce the beautiful rich warm tones natural to hen's egg yolk taste. Moreover, the average egg consumer will never believe Chicago designers can decide a fashion in eggs—despite the depression.—Bradford Sp.

The Pride Of London
Life Guards Have Gone Back To Old Quarters

The Life Guards are once again back at their old barracks quarters in Knightsbridge. They have been stationed there for about 200 years. Tradition was broken the other day when for various military reasons, the Knightsbridge barracks, the oldest in the country, were vacated by the mounted six-foot troopers and taken over by a battalion of Foot Guards. Strong enough, it has been London's modern traffic conditions that have restored the Life Guards to their old quarters. They are much closer to Whitehall at Knightsbridge and their daily progress to and from mounting guard at the old Whitehall tilt-yard station is a great improvement to the morning traffic. It is said the orders posted inside the Whitehall sentryboxes where the Life Guards mount guard are identically the same as they were more than three centuries ago.

Canada's Flour Exports

Substantial Increase In Shipments To United Kingdom Is Expected

In 1931 Canada sent 2,225,490 barrels of flour to Great Britain out of a total importation by the British of 6,141,192 barrels. The United States sent 1,187,180 barrels. It is expected that Canada will increase substantially her exports of flour to the United Kingdom.

In 1931 Great Britain imported to the equivalent of 250,460 bushels of wheat. With the flour and wheat preference granted through the agreements, the wheat exports from Canada to the United Kingdom are expected to increase by many millions of bushels.

And as the wheat industry is one of the chief keystones of Canadian prosperity, the advantages granted wheat and flour are hoped to prove important factors in the national recovery.

A photograph taken at a recent social gathering in Scotland revealed that only one man was wearing a kilt, and he was an Englishman on his first visit to Scotland.

Nearly 1,000 building permits have been issued in Melbourne, Australia, this year.

Waiting 30 Years or More for Commercial Lumber to Grow on the stump is no longer necessary, a report by a professor in Iowa State College in the American Chemical Society says. Any wood that now grows in the forest is applicable out of the refuse from American farm crops—straw, stalks and cobs, straw and bagasse. The hardest of this synthetic wood according to the report, closely resembles oak in appearance, as well as in durability, density and strength while its cross-breaking coefficient is nearly double that of oak and almost equal to that of common steel. Variations of the process of manufacture produce "wood" as light and friable as cork.

One advantage of this synthetic product is that it takes less weeks to produce than it takes years for trees to reach commercial size. Another is that it can be made out of the refuse from food crops. Still another advantage is that lamination synthetic lumber can be molded into various dimensions, which saves labor costs. A house can be built out of this material, says the Iowa professor, at about the cost of one made out of lumber and will be stronger and less expensive to heat, a result of its better insulation. The cost of producing the hardest of this synthetic building material however is approximately \$250 a ton, which seems for the time being a great advance over the cost of forest products. As timber becomes scarcer and consequently more costly, and the methods of manufacturing synthetic wood are improved and thereby cheapened, this discrepancy in costs may be expected to diminish and ultimately to disappear.

Again chemistry has come to the aid of Nature and man. When the first ax was sunk into the primal forest of America, a catamount could travel from agricultural competition with forest products. As timber becomes scarcer and consequently more costly, and the methods of manufacturing synthetic wood are improved and thereby cheapened, this discrepancy in costs may be expected to diminish and ultimately to disappear.

An Aristocratic Horse
Valued At A Thousand Guineas Is One Of Costliest In World

One of the most beautiful, clearest and most aristocratic horses to be seen in Hyde Park's Rotten Row most mornings just now.

This horse belongs to Wilson Cross, chairman of the West African Commission, and president of an oil company. It is a full-manned, full-tailed bright chestnut, six years old, and is valued at a thousand guineas. The Cross has just brought it from the United States, where it has been winning big prizes in a special class unknown in our horse shows.

It belongs to the type that Americans call a "five-paced horse," which means that in addition to the walk, trot and canter or gallop, it has been trained to two special intermediate paces: a walk and a trot in which the legs move all four in sequence instead of as two pairs.

This special gait is taught by American cowboys to their mounts because for long-distance riding it is as easy as an arm-chair, the rider being able to sit still in his saddle instead of rising to the motion of the horse. London Sunday Pictorial.

Something To Know
To prevent glass bowl from cracking when hot custard or stewed fruit is poured into it, wrap out a large flannel in warm water, fold in two and stand the bowl on this while pouring the hot liquid. Glass jars may be designated when hot jam or preserve is poured into them by the same method. When a number of jars are to be filled with jam, a warm flannel blanket is convenient, as it is thick and does not require folding.

Barter Trading Revived
Revival of old time barter trading with the natives of Africa's west coast is in the making. C. Nelson Rogers, president of the West African Trading Company, announced that the old iron bark "Carolinian," left Boston on November 12, for the Canary Islands and West Coast of Africa, where American goods will be exchanged for domestic products.

WORLD HAPPENINGS BRIEFLY TOLD

Earl Fortescue, a former aide-camp to King George, is dead. He was 78 years old. Viscount Errington is heir to the title.

The British admiralty announces that the names of the eight destroyers of the 1931 program will be Echo, Edgemoor, Electra, Eshwara, Escalade, Escort, Esk and Express.

A piece of quartz picked up casually by a road worker, has started a small gold rush into the Fourth of July canyon, east of Coeur d'Alene, Idaho.

Six new schools to accommodate 6,440 pupils—made necessary chiefly by housing development at Beestree, Essex, England—were opened at Barking, a ceremony believed to be unique.

Rear-Admiral Edward Radcliffe Evans, whose career in the royal navy since 1897 has been marked with a rapid succession of promotions and distinguished services, is promoted vice-admiral.

Great Britain is planning her hope of the world economic conference to be held at London for a solution of the world's problems, said Lord Reading, former Viceroy of India, addressing the British Empire Chamber of Commerce at New York.

Herolam which was responsible for the saving of 37 lives when the steamer "Watford" was wrecked on the coast of Nova Scotia on September 30, was recalled in London recently when Second Officer Herbert Maat was presented with the Lloyd's silver medal for life-saving at Lloyd's office.

George C. Smith, general traffic manager of the Missouri-Kansas-Texas Railway, believes thousands of Texans are no longer "train-conscious." He said a survey in several leading colleges disclosed that 60 per cent of the students had never ridden a railroad train.

The secret, say delegates to the Illinois Association of Chiropractors, is out: Adam and Eve both had flat feet. "But," said one delegate, "the ankles were better off than the moderns." They suffered from foot trouble due mainly to poor circulation, which they couldn't help.

London's Hospital For Poor

Was Result Of Vow Made By
Piergin To Rome

St. Bartholomew's Hospital in London, England, was built as the result of a vow. Eight hundred years ago a courier named Robert started on a pilgrimage to Rome. Becoming ill during the journey, he vowed to St. Bartholomew that if he were spared he would build a hospital for the poor. He recovered, and in due course the hospital was built, partly by his own hands. "Barth," by the way, is the only hospital within the City of London, and the Lord Mayor and Aldermen of the City, while holding office, automatically become governors.

The Bright Side

You can always find some reason for looking on the bright side of things. For instance, we are as glad as glad can be that we are not the official office boy who had to announce that Premier Cheng Hsi-shan of Manchukuo was in conference with Foreign Minister Hsieh Chin-Tsai.

At Coln, canal zone, the average rainfall is about 116 inches a year.

Farmers in Hungary are reported to be in serious financial condition.

Value Of The League

Has Accomplished Much In The Years
Of Its Existence

We have had the League of Nations only a few years now, and in that short time it has done much. It has bound up some wounds of the past, cured some of the ills of the present, and prevented some evils for the future. It cannot attempt everything all at once to give peace in twelve years, a planet which has been distracted by war for more than double that number of centuries. It can only attempt what a sufficient number of its supporters want it to attempt. The real danger in this crisis in its affairs is not of too slow progress but of its falling back through inactivity and ignorance on the part of Governments and peoples into a state where nobody cares whether it lives or dies. That must not be, the world would have no use for an apologetic survival, lingering on like a Holy Roman Empire or a Holy Alliance long after it had left it.—Manchester Guardian.

Woman Acted As Minister

Look Charge For Month Of American
Legation At Stockholm

The United States had a woman acting as its Minister to the Swedish capital for the first time. Miss Frances Elizabeth Willis, third secretary, headed the American Legation at Stockholm during the month of November. She reported her first day as Minister John M. Morehead, Military, naval and commercial attaches, as well as a Consul-General. Consul reported her. There is no first secretary and the second secretary was absent. Miss Willis sent a cable that satisfied Secretary of State Stimson that she could fill the job. "The Minister left last night; I have assumed charge."—Christian Science Monitor.

WHAT NEW YORK IS WEARING
(By Helen Williams)
Illustrated Dressmaking Lesson
Furnished With Every
Pattern

The "Empress of Brazil" burns fifteen tons of crude oil in its engines every hour; its four screws are driven by steel shafts 26 inches in diameter by four turbine oil engines; its engine room is an immense power plant; the ship has 850 miles of electric wiring; there are separate cold rooms for butter, fruit, meat, vegetables, milk, canned goods, cereals, tobacco; its laundry goes right and down; it has 4,000 lights in the first class dining room alone, and there are several dining rooms; its swimming pool is 100 feet long, the cooking, meat is done by electricity; there are separate rooms for bathing, making ice cream, etc., etc. The vast culinary department is complete down to an electric egg cooker and an automobile machine which checks the time of every dish and records it in case there is complaint. The ship is a vast organization, over which every man is held responsible either by supervision or machine for his work. It works out like a Swiss watch. From the greenhouse to the bridge, the system seems foolproof. Nothing is left to chance—not even the boiling of an egg.

When Windows Were Taxed

Levy Introduced During Reign Of
William the Third

Bricked-in windows in many of the old houses in England are a reminder of the time when all windows were taxed. The tax was introduced in the reign of William III. In order to pay the tax cost of the reclosing of silver. Many people objected to paying the tax, and it was to lessen the amount which could be demanded that they caused some of their windows to be bricked-in. The tax remained in existence until 1861, when it was replaced by the inhabited house duty.

The earliest known mechanical toy dates back to about 2000 B.C., and is of Egyptian origin.

White Woman Plans Hazardous Trip

Will Lead Expedition Into Land Of
Head Hunters

The first white woman ever to invade the head hunters of Venezuela, will lead a University of Arizona ethnology expedition this winter into the treacherous wilds of the Andes mountains.

Planning the traditions of her sex, Mrs. Anna McGraw plans to spend several months among three savage tribes. She expects to arrive on mule back in the land of the head hunters by December. Mrs. McGraw will pierce into the mountain fastnesses of the Guajira Indians, who are today, she says, the heads of their enemies, and use a method similar to the pygmies of Africa to shrink and mummify the features. Seeking to discover whether the theory is true that the tribe migrated from Florida to South America, she will attempt to find their ancient cities and to trace back through artifacts their history. She will make motion pictures of her explorations. While in Caracas, Mrs. McGraw will confer with Dr. Raphael Requena, noted authority on the South American Indians. The expedition also will have as an adviser, Andre Manning, renowned Colombian archeologist.

Using Food For Fuel

Nebraska Planning To Heat School
Buildings With Corn

Down in Brazil, recently, they were burning surplus stocks of coffee—just to get rid of it, as they do not need for cooking purposes. But out in Nebraska artificial heating is necessary during a good part of the year and the school commissioners in one district have decided to heat their schools with corn. The plan is to burn surplus corn in their jurisdiction with corn next year. They figure it will provide a ready market for the farmers' surplus crop and, perhaps save the country some money at the same time. They estimate they can purchase corn, still on the cob, at 48 per cent, while coal costs \$12 a ton.—Moncton Times.

SUNDAY SCHOOL LESSON

NOVEMBER 13
MAKING A LIVING

Golden Text: "In diligence not slothful."—Romans 12:11.
Lesson: Deuteronomy 24:14; Amos 8:1-5; Mark 8:3; Luke 12:13-21; 1 Timothy 6:1-14.
Devotional Reading: Proverbs 30:7-9.

Explanations and Comments
Deuteronomy 24:14—The prophet Amos is addressing the judges who "trampled upon the poor" by exacting from them a share of their scanty when in payment for justice. They shall reap what they have sown, Amos tells them; they shall not live in the houses of hewn stone which they have built, nor drink the wine from vineyards which they have planted. The prophet sees the approaching downfall of the kingdom of Israel. Recall the observation of Lamartine that man never fastened one end of a noose around the neck of his brother that God did not fasten the other around the neck of the oppressor.

I know how manifold are your transgressions, and how mighty are your sins, Amos exclaims, and then accuses them of accepting bribes from the rich, who then escaped the penalty due, and of withholding their rights from the needy who could not pay a bribe. The "gate" refers to the broad, open space before a city gate where claims were adjusted.

Representative government, democracy, the social order itself, stand in no greater danger than that threatened by the bribe-giver and the bribe-taker. When bills are passed or defeated for money secretly paid in hand, when justice is sold and law made an article of shameless traffic, the foundations of government and order are undermined.

Therefore he that prudent—caution—keep alive in such a time; for it is an evil time. The evil justice men in power, and it is useless for others, so they thought, to attempt to change things. They would only get themselves into trouble in such a time as has just been mentioned.

"Life is God's sacramental gift. To man for his enjoying."—The Bible gives him his care. For his soul's exercising—A sacred trust bestowed on him. For his immortalizing. And he who lends will one day ask the job, at 48 per cent, while coal costs \$12 a ton.—Moncton Times.

How Oriental Do It

Japan Has Built And Delivered Warship To China

For a year undelivered war between China and Japan has been going on all the time in Manchuria and for two months in Shanghai. But Japan has just delivered at Shanghai a first-class warship which she has been building for China since May, 1931. Japanese warships are in part and threatening action. It is anti-Japanese boycott here does not cease and while a section of the Japanese fleet lies in the river at Shanghai, the new Japanese-built Chinese warship steams up-river and is taken over by the "enemy."

The new vessel is a destroyer of 2,000 tons, costing \$2,500,000, has a speed of 25 knots and represents an advanced type of naval craft. She is called the "Ninghai."

Building Fast Car

Sir Malcolm Campbell is building a 1,000-horse-power automobile with which he intends to attempt to better his own world record of 254 miles per hour. The car will be equipped with a 100-horse-horsepower engine, a trophy engine similar to the ones used in setting the world's air speed record and is expected to reach 300 miles an hour.

There is no "L" in the Japanese language and no "H" in the Chinese. So John Chinaman says "All right!" and his Japanese enemy says "Aw right!"

Smiths Badly Tangled

All Three In Court Case Are Named
William

William Smith had an argument with William Smith and William Smith investigated for the police department.

Smith No. 1, a garage owner in Oakland, California, complained to Smith No. 2, a police inspector, that Smith No. 2, a truck driver, had threatened him when he demanded payment of a bill.

NEW INVENTION DOES AWAY WITH COOKING ODORS

Even fish and cauliflower bow down to Canapar Cookery Parchment

BETTER, CHEAPER AND EASIER COOKING

Delicious as carrots, cabbage and certain other vegetables are, they have imposed a heavy penalty on people who cook them. Not to mention those who had to suffer the odor without enjoying the finished product. The same thing is equally true of fish.

Canapar Cookery Parchment, a very ingenious invention, does away with this annoyance entirely. While sealing in odor it also retains flavor and food value. Cooking in Canapar actually takes the famous French method of steaming and cooking food and its flavor is the best of the best.

You buy Canapar in a large envelope of handy size sheets which may be rinsed out and used over and over again because they won't absorb odors. When boiling vegetables you simply wet the Canapar and make a bag similar to a pudding bag. If you steam them, you line the steamer with Canapar, arrange food and seasoning, and fold back corners of the Canapar to prevent steam from dripping back. You can actually cook three vegetables at once in the same saucepan, this way—save fuel—and the flavors will not intermingle.

Seamed, or boiled, fish comes out firm, solid and swimming in its own juice. No odors. No sticky starch or saucepan to clean up afterwards.

Line your roasting pan with Canapar, then the fat and food come out better. Meat is more succulent and there is no scorching or scragging of the pan afterwards.

For a complete Canapar for a dish—dish—it is so silky and satisfactory, and doesn't spread last.

You'll find it without Canapar once you start using it. It saves time and money, and saves the cupboard and the stove. Ask for PARSAN-SEAL Heavy Wax Paper in the Green Box.

Most grocers, druggists and department stores sell Canapar, but if you don't see it, send the coupon and we'll give you a new and unique booklet entitled "Canapar Cookery." Canapar and your 100 recipes for "Left-overs."

Applied Food Products, Ltd.,
Enclosed find 25¢ for which please send me one full-size package of Canapar Cookery. Fill in name and your 100 recipes for "Left-overs."

ANGLO-CANADIAN TRADE TREATY PASSES HOUSE

Ottawa, Ont.—The House of Commons ratified the Anglo-Canadian Trade Treaty, 128 to 86.

While Conservative cheers resounded through the corridors, the House of Commons placed its stamp of approval on the Anglo-Canadian Trade Treaty, negotiated at the Imperial Economic Conference.

Supported by one Liberal, J. L. Isley, Hants-King, N.S., and a Progressive, Conservative rolled up a majority of 48 as a climax to three weeks of bitter debate.

Maintaining their opposition to the last, Liberals enlisted two Independents and four Laborites in voting against the treaty.

Scores of persons were turned away from the galleries when Premier R. B. Bennett rose to close the debate. He pleaded for a "quiet moment" for the agreement, "which will give Canadian producers free entry into the markets of 40,000,000 people."

He accused the Liberals, particularly R. H. Mackenzie King, of betraying and abandoning the time-honored party policy of fostering empire trade through tariff preferences. The six Progressives who supported the treaty were: D. M. Kennedy, Pease River; Alfred Ross, Hants-King; W. T. Lucas, Canmore; M. N. Campbell, MacKenzie; Michael Luchinich, Vegreville; and A. M. Carmichael, Kindersley.

Monetary Reform

U.F.M. Passes Resolution Urging Stabilization Of Rate Of Exchange

Dauphin, Man.—United Farmers of Manitoba stand as proponents of monetary reform. After lengthy debate delegates in annual convention here passed a resolution urging the Federal Government to stabilize the rate of exchange on the pound sterling.

Resolutions approving a reduction in lake freight rates and encouragement of shipments via the Hudson Bay route also were passed.

The resolution dealing with exchange was termed "stabilizing the dollar to the pound." A parity of 46-48 was mentioned as an ideal level. Many papers were read on monetary reform and the history of currency in Canada for the past 25 years were given considerable airing.

Demand for the reduction in lake freight rates follows similar action taken by the United Farmers of Alberta. It is put forward in protest against the action of the Lake Shipping Association, which, since its organization in June, the rate of exchange has gradually increased rates from 3½ to seven cents a bushel.

Would Reduce Excise Tax

Chaper Cigarettes and Liquor If Bill Passes

Ottawa, Ont.—Chaper cigarettes and liquor may result from a bill introduced in the House of Commons by Hon. E. B. Ryckman, Minister of National Revenue.

The Anglo-Canadian trade treaty reduced tariff against cigarettes and liquors imported from Great Britain. The Ryckman bill would reduce to the same extent the excise tax paid by Canadian manufacturers, placing them on an equal footing with the distillers and cigarette manufacturers of Great Britain.

The excise tax on Canadian cigarettes would be cut from 60 cents a thousand to \$4, a saving of four cents on a package of 20. The tax on Canadian liquor would be reduced from \$9 to \$7 a proof gallon.

The Anglo-Canadian trade treaty reduced the duty on British cigarettes from \$4.10 to \$2.50 a pound, leaving the tariff against United States and other foreign countries at the higher figure. The duty on liquor was reduced from \$10 to \$8 a proof gallon and again the United States and foreign import was not touched.

Heavy Wheat Exports

Vancouver, B.C.—Vancouver is not waiting for the effect of British preference to send its wheat export totals to new high marks. During the past seven days, the weekly report of the Vancouver Merchants' Exchange reveals a total of 2,777,432 bushels was exported. This brings the season's total to 20,921,546 bushels as compared with 10,164,962 bushels at the corresponding date last year.

W. N. U. 197

Against Public Ownership

C.N.R. Vice-President Does Not Believe in Government Operation Of Railways

Montreal, Que.—The Star prints the following despatch from its Ottawa correspondent:

Plans put forward by E. W. Beatty, K.C., president of the Canadian Pacific Railway, and Gerard Ross, K.C., former legal vice-president of the Canadian National Railway, for the solution of Canada's vexed rail way situation were rejected by the recent royal commission on transportation in order that the scheme suggested by Sir Henry Thornton, former C.N.R. president, might be adopted in its substantial outline.

"Perhaps as something on an angle to it as any is the statement of Mr. Beatty after his years of association with the Canadian National system, that he does not believe in public ownership."

"My experience of public ownership of railways has been that it means government ownership," he told the committee.

"You mean political ownership?" Sir Joseph Flavelle asked him.

"Yes," Mr. Beatty returned.

The plan of President Beatty of the C.P.R. for the solution of the country's transportation difficulties, as revealed by the evidence, was government ownership to lease C.N.R. to the C.P.R. for a long term, or else in perpetuity. Mr. Beatty outlined that the C.P.R. management of the two systems would result in economies totaling \$50,000,000 annually.

His testimony upon this scheme C.N.R. witnesses said the savings would not amount, in their opinion, to more than \$30,000,000 annually. Mr. Beatty's proposal was virtually a temporary amalgamation.

Wheat Surplus Increasing

Rome Institute Report Shows 110,000,000 Bushels in Excess

Rome, Italy.—Exportable supplies of world wheat are inferior to 1931 by 60,000,000 bushels, the International Institute of Agriculture reports.

This drop is offset by a fall in the probable requirements of importing countries of 37,000,000 bushels. This situation has been caused by poor crops in the exporting countries and good crops in the importing countries, coupled with an abundance of rye, corn and potatoes, the institute report says. Stricter regulations of international wheat trade have also played a part.

The total available for export is fixed at 1,300,000,000 bushels. Or less than 570,000,000 bushels are old stocks, and 730,000,000 bushels represent the new crop surplus.

Since the old exportable stocks are adequate to meet almost nine-tenths of the needs of importers, practically the entire surplus of the 1932 crop will be carried over for consumption in 1933 and 1934.

It is estimated the existing stocks have increased by 110,000,000 bushels.

May Have Planned Robbery

Youth Arrested In Garden Of Ramsey MacDonald

London, Eng.—What was believed to be an attempt to rob Prime Minister Ramsey MacDonald or his house was revealed in a case in Hampstead police court.

Ivan Serova, described as a British subject, was arraigned on a charge of loitering at the Prime Minister's home. He was arrested, police said, in the garden of Mr. MacDonald's house at 3 a.m.

Mr. MacDonald rarely uses his lodge at Farnham, near Hampstead, where his apartment is in a small cottage, preferring to remain in his official residence at No. 10 Downing Street.

The head of the National cabinet was believed to have been at Farnham Tuesday night, November 1, however, during the disturbance in Whitehall. Serova is a well-dressed, thick-set youth, who speaks English with a foreign accent. He was carrying bricks under his arms when the police found him.

The prisoner said he had just entered the garden for a look around. He did not resist arrest.

Want Railway To Keep Agreement

Montreal, Que.—The city of Montreal intends to keep the Canadian Pacific Railway to its original plan to keep 2,500 men employed at its Angus shops here. What amounted to an ultimatum to the railway was issued by the city following a conference.

In Charge Of Indian Affairs
Ottawa, Ont.—Dr. H. W. McGill of Canada has taken over his duties here as deputy super-general Indian Affairs.

Jobless In Toronto

Mayor Asks Premier Bennett To Care For Transients

Toronto, Ont.—It is the duty of the Dominion Government to care for jobless men who arrived by train from Winnipeg, Mayor W. J. Stewart declared, and urged Premier R. B. Bennett that the government should provide for transportation of the men to their homes.

The number of arrivals was variously estimated as high as 500. Mayor Stewart, in his telegram, reported arrival of 49 on one train and said he was advised another train had arrived with a larger quota. He claimed the homes of some are in the west.

The jobs are said to have come from different parts of western Canada, many of them from the harvest fields in the prairie sections.

New Air Regulations

Operating Plane Over Canadian Penalties Is Forbidden

Toronto, Ont.—The Mail and Empire in a despatch from its Ottawa correspondent, quoted J. A. Wilson, controller of civil aviation, as issuing an order forbidding operation of aircraft over Canadian peninsularities.

The text of the order as carried by the newspaper is: "Pilots and operators of aircraft are hereby warned to avoid flying over or near any peninsularities or lake institution. In future any aircraft observed intentionally flying over such institutions for any purpose whatever will be considered to have committed an infringement of the air regulations concerning prohibited areas."

New Wheat Tariff

New Duty Goes Into Effect In Germany

Berlin, Germany.—A new wheat tariff was in effect in Germany Nov. 1, imposing a 7.50 mark duty (about \$17.7) per ton on wheat imported from Canada.

This tariff will not affect wheat brought into Germany, under ordinary tariff schedules, but only that grain previously brought in duty free on certificates issued by the government against wheat exported earlier in the year.

FARMERS ASK FOR LIMIT ON OTTAWA PACT

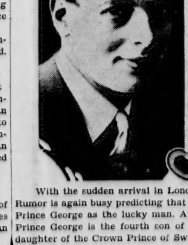

Dauphin, Man.—Limiting of the imperial conference agreements to the "life of the present parliament" was a mandate to obtain from the people confining the five-year term they now contain, is demanded by the United Farmers of Manitoba in a resolution unanimously adopted at the annual convention today. The resolution declares the present policy, "no reliance to agriculture, be discontinued."

Another resolution bearing on international problems was adopted when, after lengthy debate on currency, a motion was adopted urging the dominion government to stabilize the rate of exchange on the pound sterling at a parity of 46-48.

How long the arrangement will continue is unknown as it depends on when the relief camps are opened. However, it was emphasized men refusing to go to the camps when they are formed would be refused any relief.

ANGLO-SWEDISH ROYAL ROMANCE REVIVED

With the sudden arrival in London of Princess Ingrid of Sweden, Dame Rumor is again busy predicting that a royal engagement is in the offing with Prince George as the prince's cousin. Above is a picture of the popular couple. Prince George is the fourth son of His Majesty while Princess Ingrid is a daughter of the Crown Prince of Sweden.

HEADS PENITENTIARY

MacKay Unable To Shed Much Light On Shortage Of College Funds

Stony Mountain Penitentiary, Stony Mountain, Man.—Cluttered about an unpromising sick bed in a little room in the administration building of the prison, a board of inquiry and staff learned from John A. MacKay that he had little of the financial collapse that sent him to penitentiary for seven years.

Obviously suffering severely, the former lawyer, university lecturer, churchman and financier lay propped by pillows on a couch and emphatically declared he nor anyone else had it possible for something to be contained in the king's speech for the opening of parliament.

We hope to effect a really adjustable and just scheme which will be capable of standing the test of the next half century."

The "hunger marchers," who moved into town a week ago to serve a set of demands on the government, had ceased to be a threat, but remained as a problem.

A few of them have already gone back where they came from, but apparently the weary march in has deterred the government from beginning the march back. They seemed to have decided they might as well lie here as at home, and most of them stay on.

At times writing in pain and toiling with half closed eyes, MacKay lifted a shaking white hand to emphasize his declaration. He had no memory of any happenings in his office, he said, and asked the commission, investigating \$1,000,000 defalcations in college funds, to allow him to continue his plans for providing information.

Interested In Grain Show

Eastern Provinces Preparing To Compete In All Classes

Regina, Sask.—John A. Mooney, managing director of the World's Grain Exhibition and Conference, has returned to the city after an extended visit to eastern Canada in the interests of the exhibition.

He stated that all the eastern provinces are making elaborate preparations to be represented at the exhibition, not only in the competitive classes, but also in the section reserved for provincial educational exhibits.

Mr. Mooney stated, and farmers are working in close co-operation with the government in the selection of exhibits to ensure the best possible grain samples for entry in the competitive classes.

The Exchange Question

Federal Government Is Deeply Concerned About The Matter

Ottawa, Ont.—The Canadian government is very deeply concerned about the exchange question, Hon. H. H. Stevens, Minister of Trade and Commerce, told the House of Commons. His remarks followed an amendment by G. C. Coote (C.E.A., MacLeod), who had asked that the ratification of the imperial conference agreement be coupled with an undertaking to bring the Canadian dollar to a parity with the pound sterling.

It had been made clear during the course of debate, he continued, that the agreements which purported to be for five years could be altered at any time by parliament whenever it chose.

He maintained that apple growers in Canada who thought they had an absolute agreement for five years now found they had not.

Mr. Chamberlain replied for the government that new Canadian duties, substituted by the Anglo-Canadian pact for existing duties, could not be altered within the next five years except to a limited degree specified in the agreement.

New Amendment

Ottawa, Ont.—A new amendment to the motion for ratification of the Canada-United Kingdom trade treaty was moved by Dr. Thomas Donnelly (Lib., Willow Beach), in the House of Commons. It declares that no approval by the Canadian parliament be valid to preclude the entering of this country into any arrangement which may be proposed at the coming world economic conference.

Italian Confront

Montreal, Que.—Coincident that "the government will find some method of being helpful to those men affected by shut-down in railway shops from coast to coast," Frank MacKay, chairman of the Federated Trades of the Canadian Pacific Railway, returned to Montreal from Ottawa after securing an interview with Premier R. B. Bennett.

No Session Till January

Saskatoon, Sask.—The chance of the possibility of the Saskatchewan legislature meeting early in December were scotched when Premier J. T. M. Smith stated it was extremely unlikely there would be a session until early in January. The premier made the statement on his arrival here last week.

Hunger Marchers Go Home

London, Eng.—Bailed in their third attempt to enforce their demands, the unemployed "hunger marchers," who straggled into London, turned homeward. Thirty men climbed aboard a train, securing an order back for Brighton, whence they came. Other contingents also prepared to go home.

J. S. Woodworth, Winnipeg laborer, jumped to his feet, flourishing a copy of the Hesperian statement. He declared the speaker was "hungering" that in his years in the House he had seen nothing "quite so arbitrary."

Has Little Information

MacKay Unable To Shed Much Light On Shortage Of College Funds

Stony Mountain Penitentiary, Stony Mountain, Man.—Cluttered about an unpromising sick bed in a little room in the administration building of the prison, a board of inquiry and staff learned from John A. MacKay that he had little of the financial collapse that sent him to penitentiary for seven years.

Obviously suffering severely, the former lawyer, university lecturer, churchman and financier lay propped by pillows on a couch and emphatically declared he nor anyone else had it possible for something to be contained in the king's speech for the opening of parliament.

We hope to effect a really adjustable and just scheme which will be capable of standing the test of the next half century."

The "hunger marchers," who moved into town a week ago to serve a set of demands on the government, had ceased to be a threat, but remained as a problem.

A few of them have already gone back where they came from, but apparently the weary march in has deterred the government from beginning the march back. They seemed to have decided they might as well lie here as at home, and most of them stay on.

At times writing in pain and toiling with half closed eyes, MacKay lifted a shaking white hand to emphasize his declaration. He had no memory of any happenings in his office, he said, and asked the commission, investigating \$1,000,000 defalcations in college funds, to allow him to continue his plans for providing information.

Interested In Grain Show

Eastern Provinces Preparing To Compete In All Classes

Regina, Sask.—John A. Mooney, managing director of the World's Grain Exhibition and Conference, has returned to the city after an extended visit to eastern Canada in the interests of the exhibition.

He stated that all the eastern provinces are making elaborate preparations to be represented at the exhibition, not only in the competitive classes, but also in the section reserved for provincial educational exhibits.

Mr. Mooney stated, and farmers are working in close co-operation with the government in the selection of exhibits to ensure the best possible grain samples for entry in the competitive classes.

The Exchange Question

Federal Government Is Deeply Concerned About The Matter

Ottawa, Ont.—The Canadian government is very deeply concerned about the exchange question, Hon. H. H. Stevens, Minister of Trade and Commerce, told the House of Commons. His remarks followed an amendment by G. C. Coote (C.E.A., MacLeod), who had asked that the ratification of the imperial conference agreement be coupled with an undertaking to bring the Canadian dollar to a parity with the pound sterling.

It had been made clear during the course of debate, he continued, that the agreements which purported to be for five years could be altered at any time by parliament whenever it chose.

He maintained that apple growers in Canada who thought they had an absolute agreement for five years now found they had not.

Mr. Chamberlain replied for the government that new Canadian duties, substituted by the Anglo-Canadian pact for existing duties, could not be altered within the next five years except to a limited degree specified in the agreement.

New Amendment

Ottawa, Ont.—A new amendment to the motion for ratification of the Canada-United Kingdom trade treaty was moved by Dr. Thomas Donnelly (Lib., Willow Beach), in the House of Commons. It declares that no approval by the Canadian parliament be valid to preclude the entering of this country into any arrangement which may be proposed at the coming world economic conference.

Italian Confront

Montreal, Que.—Coincident that "the government will find some method of being helpful to those men affected by shut-down in railway shops from coast to coast," Frank MacKay, chairman of the Federated Trades of the Canadian Pacific Railway, returned to Montreal from Ottawa after securing an interview with Premier R. B. Bennett.

No Session Till January

Saskatoon, Sask.—The chance of the possibility of the Saskatchewan legislature meeting early in December were scotched when Premier J. T. M. Smith stated it was extremely unlikely there would be a session until early in January. The premier made the statement on his arrival here last week.

Hunger Marchers Go Home

London, Eng.—Bailed in their third attempt to enforce their demands, the unemployed "hunger marchers," who straggled into London, turned homeward. Thirty men climbed aboard a train, securing an order back for Brighton, whence they came. Other contingents also prepared to go home.

J. S. Woodworth, Winnipeg laborer, jumped to his feet, flourishing a copy of the Hesperian statement. He declared the speaker was "hungering" that in his years in the House he had seen nothing "quite so arbitrary."

BALDWIN HAS A PLAN TO ASSIST IDLE OF BRITAIN

London, Eng.—Stanley Baldwin, Lord President of the Council in the National Government, informed the United Club that the government was working on a programme to deal with the entire problem presented by the able-bodied unemployed of the nation.

We hope to get it into effect by the summer of next year," Mr. Baldwin said. "Our plans are not ready for that yet, but I think it may be possible for something to be contained in the king's speech for the opening of parliament."

We hope to effect a really adjustable and just scheme which will be capable of standing the test of the next half century."

The "hunger marchers," who moved into town a week ago to serve a set of demands on the government, had ceased to be a threat, but remained as a problem.

A few of them have already gone back where they came from, but apparently the weary march in has deterred the government from beginning the march back. They seemed to have decided they might as well lie here as at home, and most of them stay on.

Women's Institute

The November meeting, held at the home of Mrs. P. O. Sommers, had sixteen members and four guests present. Being so near Armistice Day, that sentiment was stressed. Crimson poppies, made by the Veterans formed the decorations. These are being sold for the Veterans by Mrs. Williamson this Autumn. The reports of the various committees were good and optimistic, especially the good time at the Halloween dance brought congratulations to the committee headed by Mrs. Jopling.

It was decided that the Bridge Drive (postponed before because we all wanted to go to see EMMA that night) will be held at the home of Mrs. Alexander on Friday, November 18. Everyone with 25c more than welcome.

Auditors for the year are Mesdames Dawson and Smith.

We shall have the usual exchange of Christmas gifts at the next meeting, at Mrs. Farmers, bring the gift and wrappings separate, then wrap it up beautifully at the meeting and get a prize if yours is the best job.

After the business was finished, a paper by R. A. Knigsberg B. A. of Halifax, on "Why Disarmament Conferences Fail" was read by Mrs. Alexander. A charming recitation by little Phyllis Chamberlin, Current Events by Mrs. Alcock, some very apropos patriotic poems by Mrs. Baker and a bright story by Mrs. Jopling formed a good programme.

Then delicious refreshments were served by Mrs. Sommers, Mrs. Hummel and Mrs. Latiff. Mrs. Maubard, the refreshment convener, and Mrs. Bastin, the secretary, were both absent on account of illness, to the regret of all.

A First National Pocket Bank

The season's best hoarding story comes from Alberta. It seems that a dairyman in the sunny province had accumulated \$707 but, unfortunately for the livestock around the farm, he deposited his savings in the First National Pocket Bank. One of the bosses with a keen understanding of values fished it out of his pocket while he was in the milking barn and enjoyed a \$707 cut, leaving a chewed bill-fold and a dime for a souvenir. The Alberta dairyman on discovering his loss was faced with a nice problem. All his savings had gone into a cow but which one of the twenty-three in the herd had the investment he was unable to tell. He called in a veterinary and arrangements were made to operate at \$10 a cow. After mumble "venny money may mo," the veterinary picked out one of the twenty-three and operated. It was a blank. He drew another one but apparently it wasn't his lucky day for it was just another blank. As the expense was mounting up, the farmer stepped in at this stage and called off the operations and all bets are in now scratching his head wondering what to do next. One of his friends suggested a raffle. A western banker thinks it would go over with a bang. The advertising matter would have interesting possibilities. "You pay your money and take your chance with \$707 as first prize," would be an arresting slogan for the campaign.

Badminton will be Social Event For Week-End

Badminton will be one of the outstanding social events at the week-end in the city when a district tournament will be held with members from clubs from Champion to Coombe and MacLeod to Medicine Hat being present. Tea will be served at the courts on Friday and Saturday afternoons and the public is extended a very cordial invitation to attend and enjoy many interesting games and to meet the out of town players.—Lethbridge Herald.
